each piece of sales and promotional materials, and each time anybody asks you about your ebook.

In addition to selling your books assiduously on-line, there are a number of other strategies that can show you how to sell more books.

One is to present something away without cost along with your book, similar to a precious bonus item. Or bundle several ebooks below one value, which lowers the value for each e book if they had been offered separately.

An efficient technique for figuring out a value is to send out a survey to your present customers. If these customers have already bought an e-book from you, ask for their opinion in terms of price. Do that by making a sales page for the new e-book, however do not embrace a worth on that page. As a substitute, add various links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other technique is to check out prices by making a number of duplicate gross sales pages with different costs on every page. Be sure your sales copy is strictly the identical on every web page, and contains your selling-deal with sentence. Then figure out for each page the conversion ratio between guests to your web site and gross sales of your book. This can inform you what your optimum value is.

Ultimately, if you happen to've written a e book that solves a problem or presents a brand new technique, your e-book will bring in both traffic and profits. So make sure to write that promoting-deal with sentence that sums up what drawback your guide solves and what the benefits of your 1045 guide will probably be to the purchasers who buy it.
